Friday, May 3 • 2:45pm - 4:45pm

Healing U.S. Historical Racial Trauma-- A Family Energetics Systemic Constellation

Michael Reddy, PhD, CPC - 2 CE Hours* - Track 5 - [LEARN MORE/REGISTER](#)

After quick review of the Family Energetics integration of EP with Systemic Constellations, we will explain, set up, and carry out together a live, EP-enhanced constellation. It will focus on healing some of the impacts of important historical and racial traumas currently affecting the United States.

LEARNING & EXPERIENTIAL OBJECTIVES

- Explain 4 scales of subconscious human collectives and explain the way in which trauma's impact on them is self-similar.
- Participate in demonstrating the ways in which systemic constellations and EP tools together each improve the effectiveness of the other
- Practice feeling into different US cultural and Racial perspectives while holding compassionate space for the releases and reframes that happen while doing this
- Create and send out an inviting seed template for how ACEP, general populations, and stuck archetypal patterns in the US can more successfully include and diversify

SESSION NOTES

- This learning lab will be limited to 60 persons and will not be recorded
- After the introductory remarks, those taking part in the process will be asked to commit to staying through to the end of the session
- Because I need to get to the main stage and set up for singing right afterwards, this session will begin strictly on time.

Michael Reddy, PhD, CPC, is an author, healer, shaman, certified coach, and leader in the US in integrating EP with Family Constellations. He trains practitioners in person and online, and helps clients recover from chronic emotional or physical suffering rooted in personal and ancestral trauma.
